PERKS & PROVISIONS

The 2019 Dallas-Fort Worth Admin Awards marks the first time that two great cities are joining forces to recognize the one thing that they undeniably have in common: A community of extraordinary Administrative Professionals who contribute in endless ways to the success of organizations that call Dallas-Fort Worth home.

This year's Finalists and Winners raised the bar, once again, for what it means to be an extraordinary contributor in the administrative field. This community of Administrative Professionals succeed in providing tremendous value to their executives and organizations and remind us that the role of the modern-day Admin is as diverse in its duties as it is critical to an organization's ability to operate successfully.

As we continue our mission of bringing unbridled recognition of Administrative Professionals to cities across the U.S., we are deeply grateful to those that have taken the time to show their appreciation by participating in the nominations process. Without people that believe whole-heartedly in the tremendous impact an Administrative Professional can have on an organization, and take action behind that belief, there would be no Admin Awards.

One of those people was Herb Kelleher, Founder of Southwest Airlines. The very public and early example Herb set of what it meant to fully understand the value of an Administrative Professional paved the way for a program like the Admin Awards. At a time when the movie 9 to 5 was a reflection of the lack of appreciation and respect for Secretaries, Herb was busy promoting his Legal Secretary, Colleen Barrett, through the ranks at Southwest. With Herb’s advocacy, Colleen’s tremendous impact and phenomenal job performance ultimately earned her the role of President & COO of the Airline over the course of her five-decade career, demonstrating for all that the sky truly is the limit for those determined enough to reach for it.

The Admin Awards continues to be eternally grateful for the example set by Herb and Colleen of what a strong business partnership between an executive and Administrative Professional can accomplish. And we are honored by the opportunity to tell their story across the country through our program’s most prestigious award, The Colleen Barrett Award for Administrative Excellence.

We congratulate all of the 2019 DFW Admin Awards Finalists and the nine Award Winners for upholding the incredible standard set by Colleen Barrett through her work at Southwest Airlines and thank you for a job so very well done.

With Boundless Gratitude,

Sunny Nunan

When The Admin Awards was launched in 2012, we sat down with Colleen Barrett to ask her for her thoughts and experiences on the administrative profession. Her answers from that September interview, edited for brevity; are below:

What did you like most about being a secretary?
I like to serve so you have to start there. I loved to solve problems. And I loved to give exemplary or positive customer service delivery on behalf of whomever I was working for. Life is all about relationships … you have an opportunity in the administrative group to form more relationships than probably any other position — even much higher up on that so-called ladder because you are very often that first point of contact with the outside world or the customer... life is just one big grassroots campaign as far as I'm concerned.

What did you like the least?
I didn't like anything that was routine. I loved to master projects, but, for example, filing was only interesting to me because I loved to be able to find anything that anyone was looking for… I've never liked rode work. (But) there's some that goes in every job no matter what position you're in.

What was the most challenging aspect of serving Herb Kelleher?
Being a nanny for 45 years for a man who has always thought he was 17 regardless of any year that was added to his personal calendar!

He was a great servant leader. He loved life and you almost couldn't be around him and not catch that love of life and love of people.

And the best aspect?
It was truly feeling his egalitarian spirit and appreciating the fact that he valued my judgment and thinking as a team member.

Did you ever think you would rise from Secretary to President and COO of Southwest Airlines?
Quite honestly it wasn't something I wanted, and I never wanted to be CEO — and I made that very clear to the Board—that isn't my strength. My strength is customer service and people and everything that touches people, and, honestly, being President and CEO wasn't my favorite position at Southwest…my favorite position was Executive Vice President- Customers. Customer to us means employees, passengers, and shareholders, so I could really touch everything. I could touch every department. And as President… I had to do a lot more external things...I did them...I can't say I hated them...(but) I like to get down and dirty and really roll up my sleeves.

What advice do you have for Admins?
Love. Everybody. Just love. It's a word that corporate America doesn't use very much...always remember where you came from — so that you know how far you've come...I don't think most of us start out thinking we're going to be the President of the United States or the CEO of a company... and I think...be humble and appreciate what you get. To me psychic satisfaction is 10 times more important than pay or title. Be authentic. Be real. Remember who you are.
